Allowable Subject Matter

Claims 1-25 are allowed.

The following is an examiner's statement of reasons for allowance. The prior art of record and to the examiner's knowledge does not teach or render obvious, at least to

the skilled artisan, the instant invention regarding a method of assembling a wafer to an interposer, particularly characterized by providing a wafer having un-singulated die and conductive bumps protruding from the wafer surface and connecting the wafer to an interposer such that the conductive bumps extend into recesses of the interposer, as recited in sole independent claim 1. Claims 2-25 depend either directly or indirectly from claim 1. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
